The meteorological report of the weather, at the city of Alpena, is as follows for Highest temperature, 92 degrees, on the 19th Highest barometric pressure, 50.17 inches Greatest daily precipitation, .77 inche

Number of cloudy days, 4. H. McP. BALDWIN,

Be on your Guard.

If some grocers urge another baking powder upon you in place of the "Royal," it is because of the greater profit upon it. This of itself is evidence of the superiority of the "Royal." To give greater profit the other must be a lower cost powder, and to cost less it must be made with cheaper and inferior materials, and thus, though selling for the same, give less value to the consumer.

To insure the finest cake, the most wholesome food, be sure that no substitute for Royal Baking Powder is accepted by you.

Nothing can be substituted for the Royal Baking Powder and give as good results.
